The logistics of embracing our differences. UPS thrives on diversity. Each community we serve represents the essence of our company and the rich diversity of our customers, our suppliers and our employees. Embracing our collective differences, UPS supports many minority-focused organizations that promote the cultures, ideas and well being of those they represent. Like many UPS people working in their communities, Teri McClure takes part in the effort to empower the lives of women and children, teaching them life’s principles through her involvement with the many organizations to whom she gives her time. It’s the right thing to do, and it’s a commitment that’s as much a part of UPS as our brown trucks. Diversity: at the heart of UPS. community.ups.com
